EDUCATION

California State University, Monterey Bay, Seaside, CA | B.S. Computer Science - May 2026

EXPERIENCE

Apple, Monterey, CA

Specialist | Jul 2025 – Jan 2026

- Provided technical support to 10–50+ customers per shift, diagnosing and resolving iOS and macOS configuration issues
 - Configured and deployed iOS and macOS devices across 20–30+ units per shift, supporting setup, resets, and data migration
 - Assisted with employee credential and account management including password resets for in-store staff
-

PROJECTS

MotoRYX (Team Project) | Spring Boot, Java, React, OAuth2

- Built 15+ REST API endpoints using Spring Boot controllers
- Designed scalable Controller-Service architecture for backend expansion
- Collaborated via Git-based pull requests in a team environment
- Documented API endpoints and architecture for team reference

Personal Site | Next.js, React, Tailwind

- Built and deployed 5-page full-stack portfolio site with Next.js, React, and Tailwind via automated Vercel CI/CD pipeline
- Integrated Resend API via server-side Next.js API route for secure contact form email delivery
- Designed responsive multi-page layout including dynamic resume viewer and project showcase

Weather Now (Team Project) | Node.js, Express, EJS/HTML, Weather API

- Developed user preferences system with session persistence and database integration
 - Built backend routes and integrated external weather API for real-time data
 - Contributed to frontend styling and application deployment using Render
-
